

MySecureMeeting

MySecureMeeting™ (MSM) is built on WebRTC, a standards-based approach to enabling real time communications through a common set of APIs.

WebRTC (Web Real Time Communication) defines a way for browsers to implement technologies like video chat in a way that is both interoperable with other clients, and does not require the use of a plug-in.

Technology & Achievements:

- Native app for iOS 6 and onwards
- OpenTOK SDK
- Video conferencing via Mobile to Web
- Video conferencing using OpenTOK SDK that is based on WebRTC standard
- Integration with Drupal based web end for OpenTOK
- Joining video session with just a click on link in emails
- Video conferencing works in background when user is navigation in application

About Technosoft

Technosoft is an ISO 9001:2008 certified company with 10 years of Healthcare software development and integration experience. We are CMMi ML2, a Microsoft Certified Partner and an IBM advanced business partner.

Our solutions help care-givers provide quality patient-care. We have created applications for hospitals, pharmacies, physicians, patients, and manufacturers.
