

HL7 and Custom Interfaces:

We at Technosoft have developed and managed many HL7 interfaces including:

- in/outbound Scheduling SIU (S12-S16, S26)
- In/outbound Billing P01
- Inbound/Outbound ADT (A01-A36)
- In/outbound Charges (P03)
- In/outbound Orders (O01)
- In/outbound Results R01, Radiology, Lab, Text, PDF, PS, HTML, JPG, Quest and base64 R01 interfaces etc.
- m-health

We also have over 11 years of custom interface development experience and have worked on over 20 different custom billing interface implementations, among others. Our team of **HL7 interface developers** executed numerous successful projects in this field. We provide interface design, development, management and support services.

[Review our generic interface specification document development that you can use for future HL7 integrations.](#)
