

HealthSlate Patient App

HealthSlate Patient app is a chronic Disease management system completely developed by Technosoft. It's a native iOS and Android client side application with JSF, Sprint, Elgg, MySQL backend on Amazon's HIPAA compliant private cloud on AWS and RDS. HealthSlate patient app allows users to take pictures of their food and send to Dietitians to report the meal calories, carbs etc. The app has an interactive training module that allows patients to go through a complete curriculum with direct video conferencing with instructor.

Technology & Achievements:

- Native Android and iOS apps
- J2EE based web end
- IOS CoreData framework for database interaction, StoryBoards
- Elgg; Social Framework for Community/groups
- HIPAA compliant
- Video conferencing using SighCall SDK

About Technosoft

Technosoft is an ISO 9001:2008 certified company with 10 years of Healthcare software development and integration experience. We are CMMi ML2, a Microsoft Certified Partner and an IBM advanced business partner.

Our solutions help care-givers provide quality patient-care. We have created applications for hospitals, pharmacies, physicians, patients, and manufacturers.
