Offshore Software Development Company

About us:

Technosoft Solutions Inc. is a software outsourcing and application development company dedicated to Healthcare Software Development and Integration Services.

We are offering a full range of IT solutions and support services to companies developing healthcare solutions for the U.S healthcare industry.

Many of our clients are well versed in software development and have healthcare solutions deployed at main hospitals. We augment their resources with our HL7 integration, HIPAA privacy & security expertise.

Why Technosoft:

- **+10** years Healthcare IT expertise
- **2000** In over USA hospitals our applications are in use.
- Strong Exposure in **mHealth**
- Expert with **HL7/Custom** Interface Development
- **90%** Repeat Business
- **SEI CMMI** Level 2 Appraised

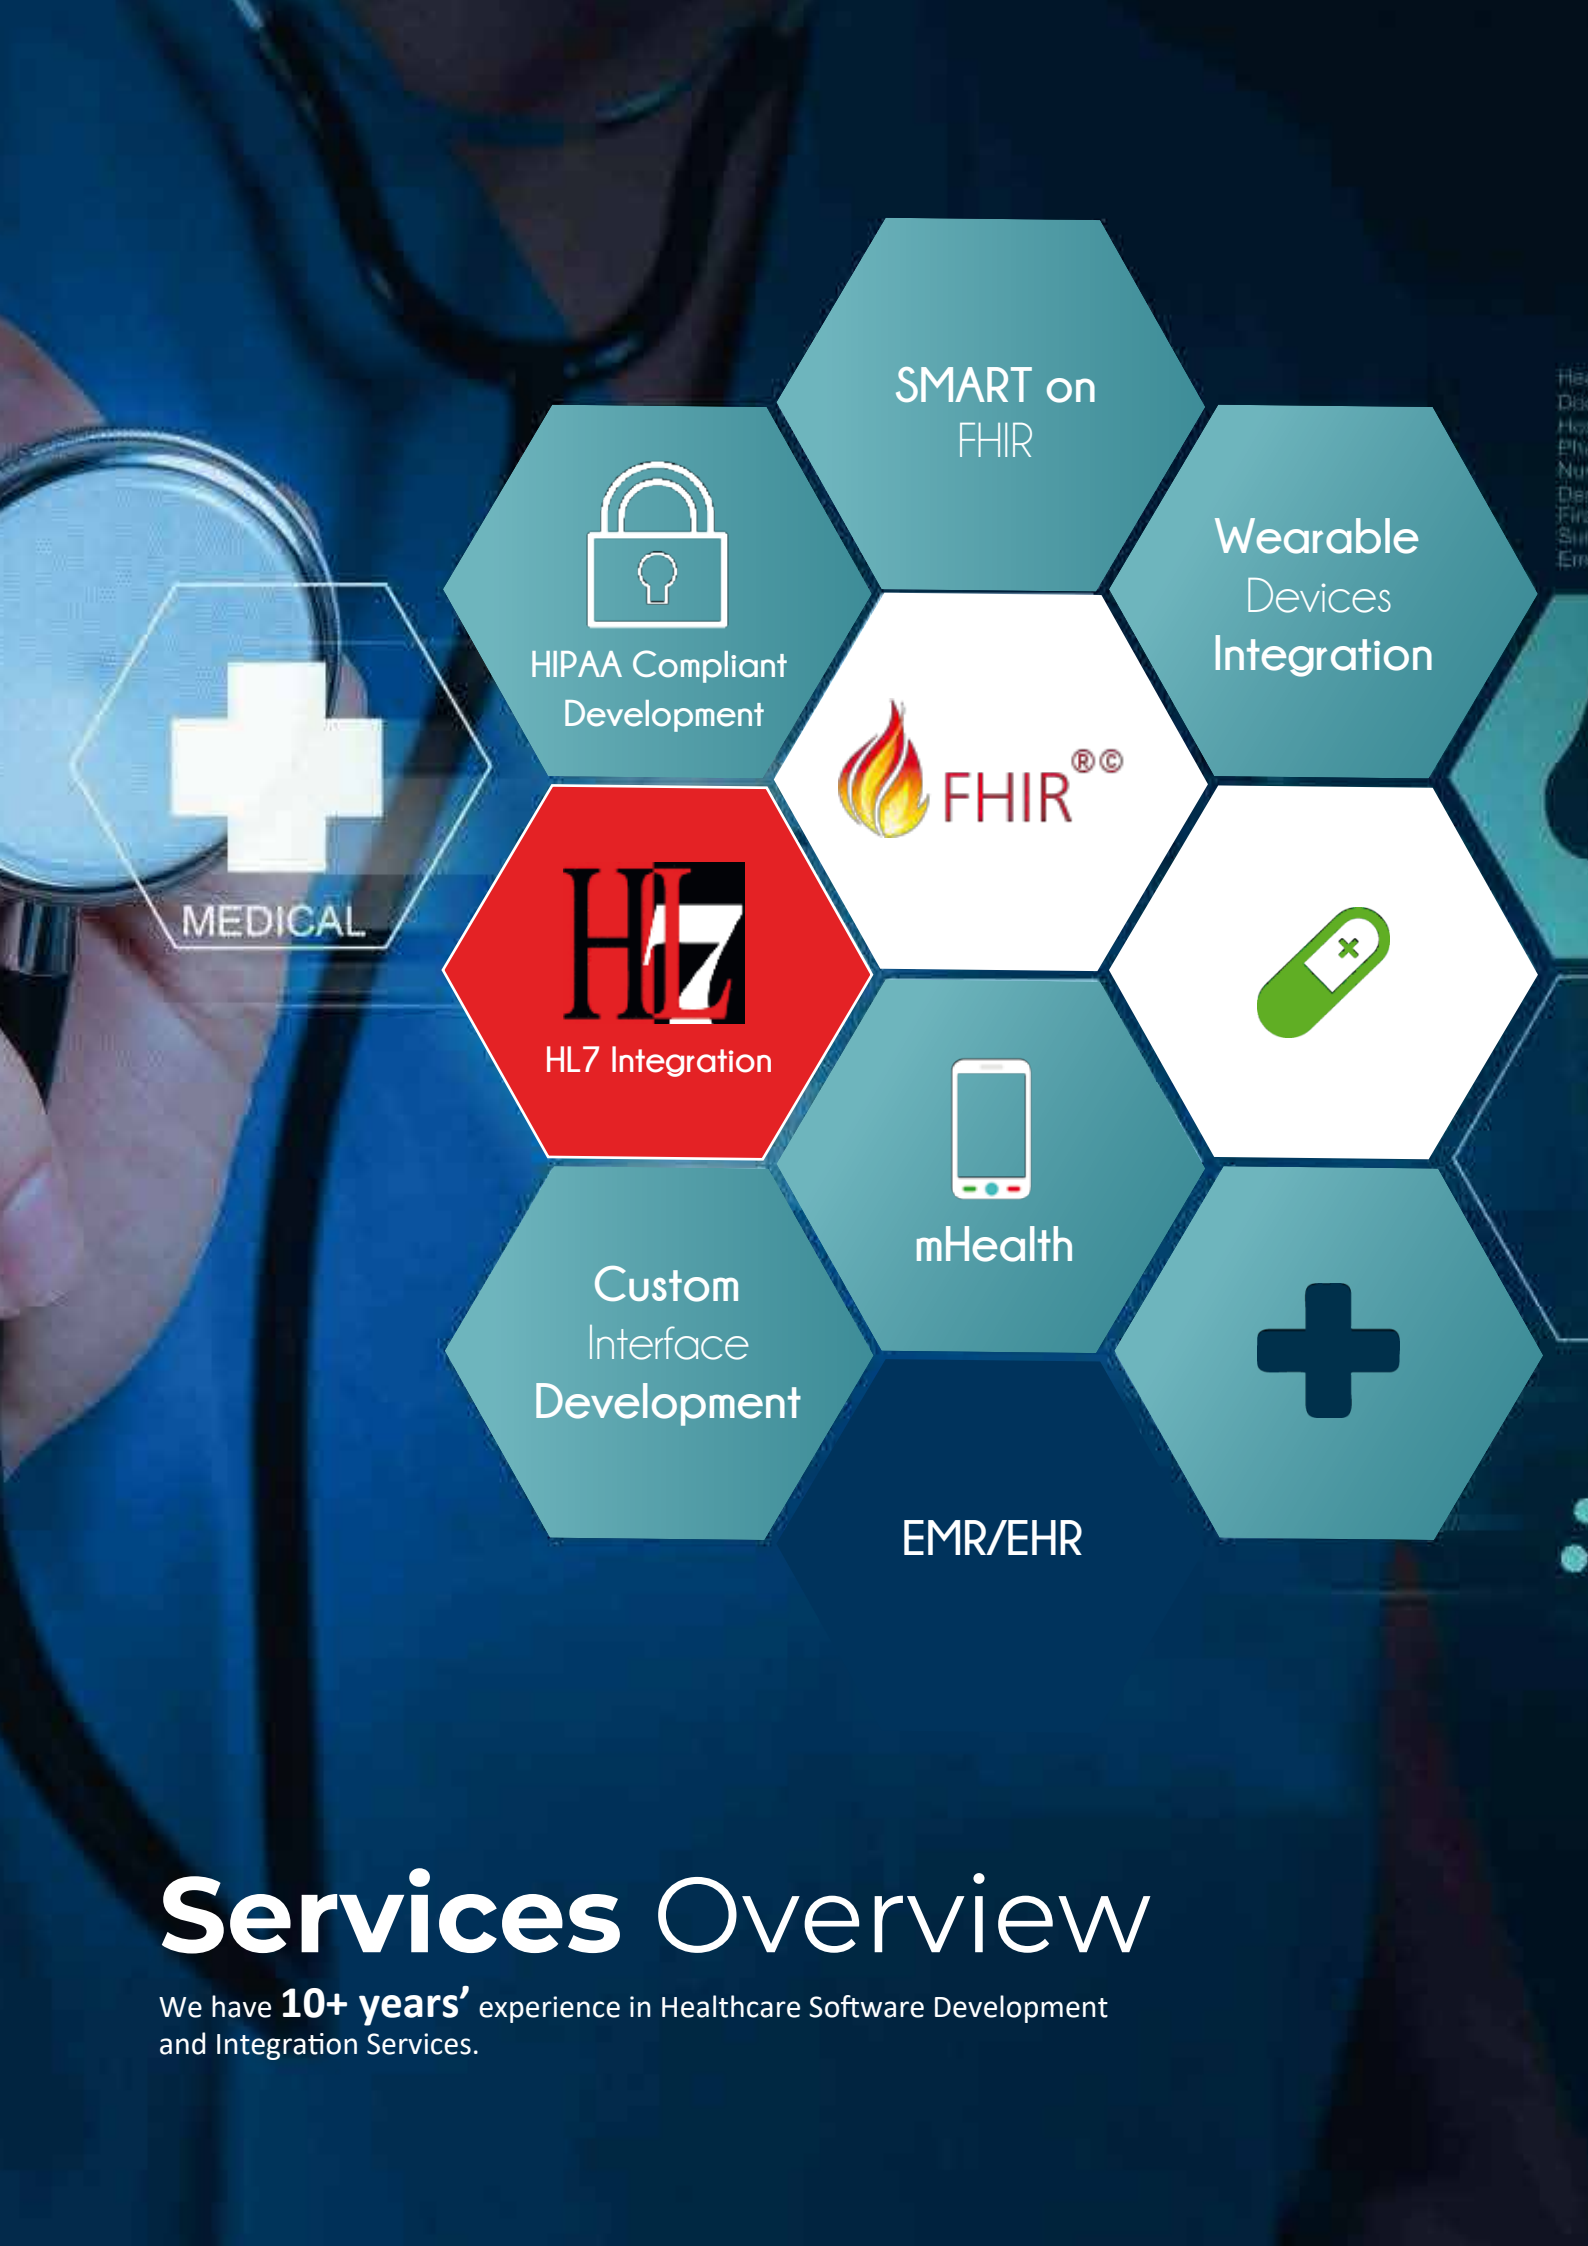

Do you need specialized Healthcare Services?

And don't have in-house expertise in HL7 Integration, FHIR, HIPAA, EDI, m-health, Mirth, EMR/EHR, Pen-testing, Load testing, Secure Video chat etc.?

We understand healthcare, its complex workflows & regulatory requirements...

Services Overview

We have **10+ years'** experience in Healthcare Software Development and Integration Services.

HL7 and Custom Interfaces:

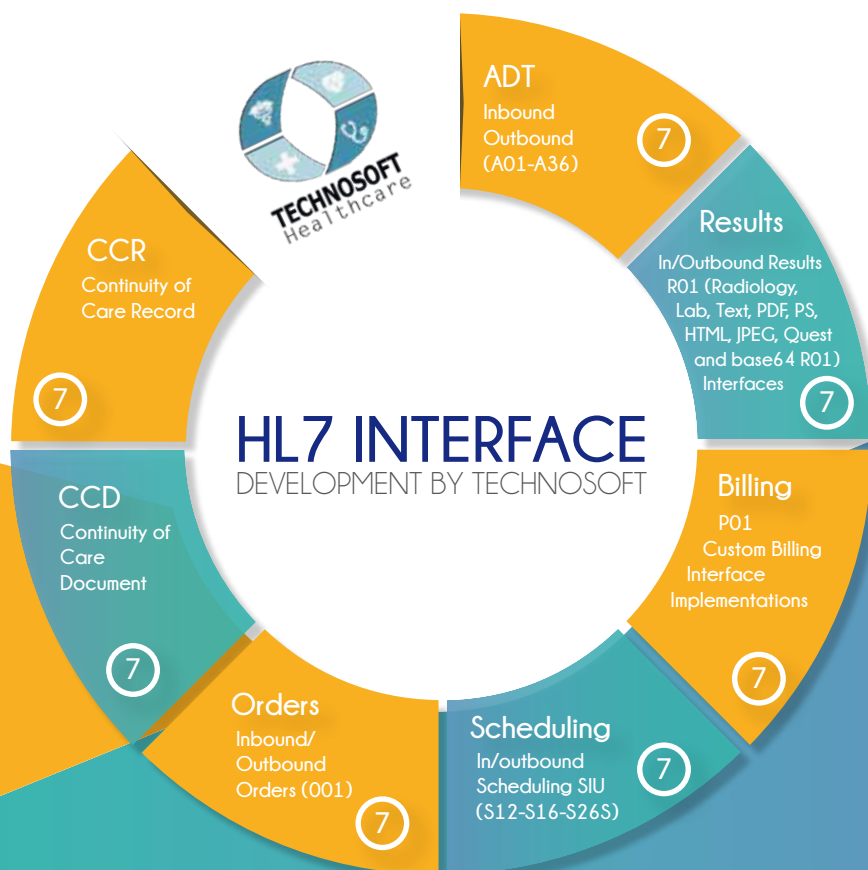

We have developed all kinds of HL7 interfaces to major healthcare systems currently in use. Our HL7 and custom integration solutions can help you securely connect with other healthcare systems quickly.

We have developed and managed many HL7 interfaces including:

- In/outbound Scheduling SIU (S12-S16, S26)
- In/outbound Billing P01
- In/outbound ADT (A01-A36)
- In/outbound Charges (P03)
- In/outbound Orders (O01)
- In/outbound Results R01, Radiology, Lab, Text, PDF, PS, HTML,
- JPG, Quest and base64 R01 interfaces etc.

We have developed all kinds of HL7 interfaces to major healthcare systems currently in use. Our HL7 and custom integration solutions can help you securely connect with other healthcare systems quickly.

HL7 FHIR services

FHIR is a healthcare information exchange standard that makes use of an HL7-defined set of “resources” to support information sharing by a variety of means, including documents, messages, services and RESTful interfaces.

SMART on FHIR Applications:

We provide HL7 FHIR services in USA. Our First SMART on FHIR app is published in the SMART App Gallery.

MEDs Price Compare

MEDs Price Compare allows fetching all the medication of selected patient and comparing prices, print free coupons & saving up to 80% on prescription and non-prescription MEDs.

HIPAA Compliant Development:

We have in-depth knowledge of HIPAA privacy and security regulations and implementation. Since 2000, we have developed many HIPAA compliant healthcare solutions.

mHealth:

Technosoft has developed numerous mHealth applications. We are one of the very few offshore software vendors with a vast amount of published mobile applications & an install base of thousands of healthcare professionals.

Our applications are in use in thousands of hospitals and clinics across the country.

We have the honour to serve around
THREE THOUSAND
Hospitals & Clinics across the USA

Serving as Business Associate to many healthcare software vendors and covered entities. We understand healthcare, its complex workflows & regulatory requirements.

Depth of knowledge in Healthcare:

Depth of knowledge in healthcare and strong software engineering capabilities enable us to develop solutions which are meaningful.

- EMR Care Management Solution
- Burn Cases Assignment System
- Diabetes Educator Solution
- Medical/Treatment Information
- Personal Health Record System
- Care & Disease Management System
- General Practitioners Communication
- Custom Portal for Physicians
- HL7 Interface Development
- Dermatology Information System
- Chronic-care Solutions
- Mental Health Case Record
- Secure Video Calling Healthcare Communication app
- Rehabilitation Appointment Scheduler
- Android Glucose Meter Reader

Wearable Devices Integration:

We have integrated several of the Healthcare industry's leading wearable devices and fitness trackers.

Technosoft solutions is providing one-to-many connection integration solutions to digital health technologies. We provide cloud-based technology platform that connects patient-recorded data from digital health applications, devices and wearable devices to electronic health records (EHR) systems, M-Health applications and to other health systems. With access to this information, our clients accelerate their strategic healthcare initiatives from patient engagement to care coordination, wellness programs and more. By integrating your healthcare system with wearable devices, you can remotely monitor and track patients standardized and HIPAA-compliant health data. We take the complexity of healthcare transformation and the guidelines of regulatory laws and provide frameworks and integration solutions that enable us to meet and exceed our client's objectives.

If your Healthcare software needs to receive data from the Activity Trackers (Misfit Shine, Misfit Flash, Fitbit, iWatch, Google Glass integration or any other activity trackers), we can help. We have integrated with cloud API based and direct vendor SDK based wearable solutions. We have integrated some of the most popular wearable devices in the market.

Healthcare

Software Project Profiles

No one has done as many Healthcare Applications as we have

Our solutions help care-givers provide quality patient-care. We have created applications for hospitals, pharmacies, physicians, patients and manufacturers. Some of the publicly available mHealth apps developed by Technosoft:

Physzit TCM

A transition of care management solution. The solution allows physicians to virtually visit patients via secure Video conferencing solution. It is integrated with Athena EMR.

iConsult

Dermatology Information System. It allows Aestheticians to take picture of patients and then visually work with the image to decide treatment options and locations.

HealthSlate Patient App

HIPAA compliant Care & Disease Management System. App allows users to take pictures of their food and send to dietitians to report the meal calories, carbs etc.

MySecureMeeting

Video Chat HIPAA Compliant Solution MySecureMeeting™ (MSM) is built on WebRTC, a standards-based approach to enabling real time communications through a common set of APIs.

HealthSlateDE

The App has been deployed at around three thousand educators across the country. This HealthSlate solution is delivered pre-packaged in an Android tablet for Diabetes Educators with required tools and videos or patient education.

BurnHelp

Different hospitals usually share burn experts any time a Burn patient comes to a hospital or to an ambulance, a triage nurse would take pictures of the patient and send to burn specialist available.

What Our Clients Say About Us

“

Stewart Whaley

CPO - Physit, Inc.

"It was always difficult to hire an offshore vendor by considering performance, level of understanding, trust human resource and legal issues but in this case with Technosoft I started feeling confident right from the beginning due to their effective communication and level of understanding. I got very optimistic and positive feedbacks from my US clients regarding work done by Technosoft and I feel very comfortable as the team is always in touch with me all the time"

”

“

Riffat Chughtai

President - Phys Biz Inc

"I am impressed with Technosoft solution's work ethics and understanding of projects, even with complicated and foreign projects such as EDI Specifications, HIPAA protocols and HL7 standards. Their dedication to their customers is unmatched so it was very easy for a Healthcare Technology company like mine to transition the development projects from another company in India to Technosoft Solutions and I am very happy that I did do that. Technosoft Solutions is a team of people a with wide range of expertise which is helpful in offshore projects."

”

“

Richard Crawford

CEO - iConsultAesthetic

"Technosoft began working on the iConsult project when my existing developer had to leave. During the process of interviewing new developers I was very impressed with their experience in healthcare tech development, their client list and quality of work in both iOS and JAVA. What became apparent very quickly is that these guys will WORK HARD for you."

”

“

CEO - Satya Media Group**Mary Lee Weir**

"We've been working with Technosoft for two years and as a start-up with limited funding they have never once lacked professionalism. The team at Technosoft communicates efficiently, the performance on projects is excellent and we continue to push through on our development roadmap."

”

“

CEO - Csimplicity Software Solutions**Dr. Hamed Amani**

"These guys are fantastic. They are the most professional programmers I have had the pleasure of working with. They were in constant contact with me. They corrected everything I asked for. I recommend them to you highly. It is a pleasure to find this group to work with. We will be doing lots of business in the near future."

”

“

CEO - Phyzit, Inc.**Keith Moore**

"Offshore development was always been an issue of concerns for us until we met Technosoft. In six months' time we were confident enough to relay on Technosoft as they really care about the customer and requirements."

”
