

Technosoft Solutions has created dozens of Mobile Apps since 2009. We are developing iPhone/iPad native and web applications for Healthcare Industry using Native iOS SDK, PhoneGap, Titanium, Coca2D and cross platform mobile development. Our developers have in-depth understanding of the iOS platform and can tackle even the most complex challenges.

iOS Healthcare Application Development

Summary of our install base:

Our Solutions help care-givers provide quality patient-care. We have created applications for hospitals, pharmacies, physicians, patients, and manufacturers.

- With the roll out of our latest Android tablet and iPad Diabetes Educators application, we now have the honor to serve around two thousands hospitals and clinics across the USA.
- Our Primary Care Physician application has been rolled out to around 30 clinics and still growing.
- Our Rehab Healthcare application is in use in over 20 hospitals across the USA.
- Our Dermatology iPad application is in use in over 50 clinics around UK.
- Our Mental Health web application is in use in over 50 hospitals across the USA.

mHealth

We are totally focused on providing patient-centric, effective, efficient and accessible healthcare services like

- ✓ Customized app development for digital mobile devices, tablets and smartphones
- ✓ Plug-in development for mobile medical devices
- ✓ Integration with other applications (Hybrid Apps/Web based/Native)
